KTW – Blood Donation Day 2020

Hong Kong Red Cross Blood Transfusion Service announced that Hong Kong's blood banks were running drastically low as a consequence of the COVID-19 pandemic. Central Kowloon Route – Kai Tak West (CKR - KTW) Project Team joined hands with the Hong Kong Red Cross Blood Transfusion Service mobile team to organize "Blood Donation Day" again on 9 July 2020. The event was conducted by scheduled appointments to ensure pre-cautionary health measures are practicable and in place at the venue.

Over 50 donors in the Project Team supported this blood donation campaign. To recognize donors who gave blood for the second consecutive year, they were complimented with certificates.
